

# CyberMetrics Corporation

Founded in 1988, CyberMetrics Corporation is a leading developer and worldwide supplier of calibration and quality management, maintenance management and supplier QA software solutions that are scalable to meet the demands of the largest and smallest of companies and are easy to implement, manage and use.

Over 12,000 facilities worldwide, in virtually every type of industry, use our products to manage their assets, calibrations, preventative maintenance and supplier quality while maintaining standards compliance.

Managers, engineers and technicians rely on our software every day to help improve their product and process quality, supplier tracking, work flow and productivity, while reducing costs and increasing profitability.

Our comprehensive line of standards-compliant software packages includes:

- GAGEtrak® - The world's #1 calibration management software solution
- FaciliWorks® Maintenance Management and Enterprise Asset Management Software
- SUPPLIERtrak® Supplier Quality Assurance Software

Additional products are available to complement our software solutions:

- CalPro® Calibration Procedures
- TaskPro® Maintenance Procedures
- SafetyPro® Safety Checklists
- A complete line of PDAs, printers and barcode scanners

To assure that our software solutions provide the maximum utilization and user benefit, we offer a variety of comprehensive services including product training, data import services, consultation, implementation and custom programming. We also provide extensive support and maintenance service and back every solution with a money-back guarantee.

CyberMetrics is headquartered in Phoenix, Arizona and is privately held.
