FOR IMMEDIATE RELEASE

CyberMetrics Quality Management Division Sets All-Time Sales Record – FY, 2008

SCOTTSDALE, Arizona-January 12, 2009

CyberMetrics Corporation, a leading software and solutions provider reports all-time record sales through year-end 2008.

CyberMetrics' Quality Management Division (QMD) maintained an amazing 24% year-over-year revenue growth through December 2008. Similarly, CyberMetrics' Asset Management Division (AMD) also reported double-digit revenue growth of 27%. This year marks the highest revenue numbers in the company's 20-year history.

"Considering the overall economic downturn, we are especially thrilled about the growth we've experienced in 2008. We plan to use the momentum to continue our growth into 2009 and beyond." says CyberMetrics President & CEO, Dave Banerjea.

Sales of CyberMetrics-QMD software, training, and services rose 24% over the previous year, providing CyberMetrics-QMD with its third straight year-over-year multi-digit sales growth. Services alone rose 22% over the previous year.

The continued growth of GAGEtrak (Calibration Management Software) and the planned release of the next generation product (GAGEtrak v7) in Q1 2009 will add to GAGEtrak's position as the number #1 calibration management software solution in the world.

"With the upcoming release of GAGEtrak v7, CyberMetrics is poised for continued growth and future success", adds Banerjea.
