FOR IMMEDIATE RELEASE

CyberMetrics Corporation announces the release of CyberSensor Temperature and Humidity Monitor

SCOTTSDALE, Arizona – March 26, 2009

CyberMetrics Corporation's Quality Management Division, a leading provider of calibration and supplier quality management software solutions, is proud to announce the release of CyberSensor for GAGetrak.

CyberSensor is a temperature-humidity monitor that works in combination with GAGetrak v6.5 or higher. CyberSensor monitors the temperature and relative humidity of a calibration environment, making calibrations even more precise. Customers are able to double-click the Temperature or Humidity field in GAGetrak to automatically populate either with data read from CyberSensor. CyberSensor connects to a computer via a USB port making it portable and easy to use.

CyberSensor comes equipped with the following features:

- Accurate temperature and relative humidity monitoring
- Inexpensive USB thermometer
- USB allows for easy installation
- Provides temperature and humidity information for a specific area
- Receive notification of environmental problems in the monitored area
- Easy to install and set up
- Portable size (2.8" x 2" x 1.25")
- USB cable included
