FOR IMMEDIATE RELEASE

CyberMetrics Reports Record Sales Ending Q3 2008 YTD

SCOTTSDALE, Arizona-October 9, 2008

CyberMetrics Corporation, a leading software and solutions provider founded in 1988 and located in Scottsdale, Arizona, reports record sales through Q3 2008.

Year-over-year revenue growth for CyberMetrics Quality Management Division (QMD) is an amazing 28%.

“Other than the Y2K Bug driver back in 1999, we have never seen growth like this before”, says CyberMetrics President & CEO, Dave Banerjea.

Sales of CyberMetrics’ services revenues rose 34% over Q1-Q3 of the previous year, providing CyberMetrics with continued multi-digit sales growth.

The continued sales growth of GAGEtrak (Calibration Management Software) adds to GAGEtrak’s position as the number #1 installed calibration management software solution in the world.

“Even with the current state of the economy, I am happy to be able to reinforce my statement made earlier this year that CyberMetrics is *enthusiastic* about our 2008 prospects”, adds Banerjea, “and with our planned release of GAGEtrak v7 in Q1 2009, the outlook for next year looks positive as well”.
