

# Manage your calibrations and maintenance with FaciliWorks® 8i

CyberMetrics offers the web-based Calibration Manager Module for use with its FaciliWorks 8i Asset Management System.

Key benefits include:

- Unified system for managing metrology, manufacturing and facility assets
- Combines key operational processes
- Allows for more efficient auditing and compliance with ISO/TS/FDA standards
- Reduces complexity, costs and resources

FaciliWorks 8i can be installed on your server or hosted as a SaaS application on our servers

Call CyberMetrics Asset Management Division at **1-800-776-3090** to schedule your personalized demo and see for yourself how FaciliWorks 8i will help your company.
