

GAGetrak[®]

Total Calibration Solution (TCS)

The GAGetrak Total Calibration Solution (TCS) provides everything you need for ISO/QS 9000 calibration compliance – at a special package price.

The package includes:

GAGetrak[®] Calibration Management Software

Schedule calibrations, track calibration performance history and conduct gage R&R studies with this full-featured, networkable calibration management solution that runs on your PC.

Calibration Label Kit

Print professional-looking, highly durable laminated calibration labels for all your equipment.

CalPro Step-by-Step Calibration Procedures

Keep compliant with ISO/QS 9000-this database of calibration procedures covers more than 40 different kinds of measuring devices.

Maintenance and Support Agreement

The Maintenance & Support plan provides professional, technical support of your GAGetrak Calibration Management Software product for one year, as well as one free upgrade per license.

If you need more than one license, check out our TCS Plus package:

Our GAGetrak TCS Plus package includes everything listed above, plus:

A Second License of GAGetrak Calibration Management Software

Double your efficiency with a second seat of the World's #1 installed Calibration Solution! When you purchase the TCS Plus package, you will receive a total of 2 licenses of our GAGetrak software.

Maintenance and Support Agreement

Maintenance and support provides professional technical support of your GAGetrak Calibration Management Software product. With TCS Plus, get one year of maintenance and support for both of your GAGetrak licenses, as well as free product upgrade per license. Call 1-800-777-7020 for special package pricing.
